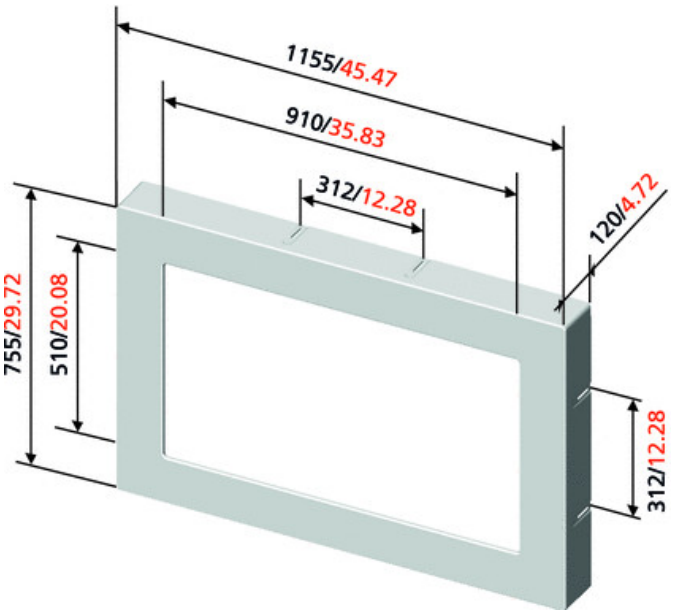
Specifications

Min. TV size	40"
Max. TV size	42"
Guarantee	5 years

The Vogel’s TVskin® front is the eyecatching part of the TVskin concept. Fronts are available in two different styles, Cubic and Classic.



PTS CB42 CB TVskin plastic - front C

Vogel's TVskin is the next step in digital signage to get the maximum out of your display communication: Ultimate Communication Power. The TVskin concept can be used in many different ways. You can use it to extend your brand or corporate identity or it can be used to integrate your displays into your interior. Tvskin is very easy to customize in the way you want. TVskin is standard available in the color white. Any other color or custom design is possible on request. Landscape and portrait positions are both possible. The TVskin front is always used in combination with a TVskin display interface for mounting on any of the Vogel's modular mounting systems. Optional a TVskin back is possible for a smooth looking backside and protecting the back and cable connections of the display.
